Concept 1: 3-Lanes with Signals

This concept maintains the existing 3-lane roadway section and adds traffic signals at Trainor Gate Road and Fred Meyer's/Blair Road intersections. Bicycle and pedestrian accommodations include shoulders, sidewalks and designated crossing locations. **This Concept was dropped because it does not sufficiently address traffic and safety deficiencies.**

Concept 2: 3-Lanes with Roundabouts

This concept maintains the existing 3-lane roadway section and adds roundabouts at Trainor Gate Road, Fred Meyer's/Blair Road, and Helmericks Avenue/Seekins Ford Drive. Bicycle and pedestrian accommodations include shoulders, sidewalks and designated crossing locations. **This Concept was dropped because it does not sufficiently address safety and capacity deficiencies.**

Concept 3: 4-Lanes with Roundabouts

This concept provides a 4-lane roadway section with a raised median (preventing left turns) and roundabouts at Trainor Gate Road, Fred Meyer's/Blair Road, and Helmericks Avenue/Seekins Ford Drive. Bicycle and pedestrian accommodations include shoulders, sidewalks and designated crossing locations.
