

Concept C

Perspective 1

Image that looks east from North 10th St. into ImaginArt in the Alleys. An art piece or sculpture signfys the east entracnce.

Perspective 2

Image of central common showing sculptural walls and fountain that define an outdoor room or gallery. A large open space to the north provides opprotunity for the performing arts. A curb bocce court to the west provides interactive opportunities in the summer months and may-be frozen for curling in the winter.

Perspective 3

An overhead perspective showing the central common, the outdoor gallery and multi-use open art/performing arts space.

Perspective 4

A ground level perspective at night shows how a signature feature, in this case a water feature can serve as a focal point to unify and draw people into the space.

Perspective 5

A birds eye perspective of the central common and outdoor gallery.

Perspective 6

A signature art feature that is lite at night to draw attention to ImaginArt in the Alleys and invite the passer by into the space.
