

Plan

Day Perspective 1

Looking East into the alley from 10th Street, a unique landform and sculptural work (yet to be designed) invite passers-by into a matrix of Uptown Marion's alleyways.

Day Perspective 2

This image looks south from 8th Avenue into the heart of the project area.

Day Perspective 3

Pictured here is an overhead perspective of the Central Commons. The large mixed-use space provides opportunities to showcase future art installations as well as the performing arts.

Day Perspective 4

The East alley entrance shows lighting and planters to create a more inviting space and complement local businesses. The space also provides unique settings for public art.

Day Perspective 5

A bird's-eye view from the North end of the alleyway shows overall features of the Central Commons.

Day Perspective 6

Paver bands define the pedestrian pathway in the South alley and lead to the Central Commons.

Night Perspective 1

Lighting in the North/South alley creates a welcoming experience at night and features up-lighting to showcase the historic brick walls.

Night Perspective 2

Well lit artwork visible from 10th Street welcomes pedestrians into the west alley.

Night Perspective 3

The East alley near 11th Street suggests public and private concepts for lighting in this narrow passage.

Night Perspective 4

A bird's-eye perspective of the Central Commons is shown here. The space features overhead lighting to support a vibrant night-life.

Night Perspective 5

An overhead canopy (yet to be designed by an artist) delineates the Central Commons.

Night Perspective 6

A bird's-eye view from West to East illustrates this space at night.
